

We realise there is a lot that goes into running a successful business, and keeping your employees supplied with the latest technology can feel like a full time job. That's why we've created On-Cloud. A comprehensive solution for your IT needs. At the heart of that solution lies Office 365.

Everything You Need : All in One Place

We provide totally integrated, easy to use IT solutions because we believe sharing ideas and information should be simple. On-Cloud, with Office 365 is a monthly subscription with full support from concept to implementation. It includes, the full Office suite that you know and love, expert advice, and any tools and accessories that you need.

Designed to enable collaboration more easily than ever, Office 365 also comes with live diary and file-sharing, group messages and even video conferencing capabilities with Skype for Business. It is continuously maintained and improved to give you the most up to date and easy to use service and cutting-edge business applications.

Ongoing Help and Support

Based on a monthly subscription, On-cloud is simple to budget for. There are no hidden upgrade costs, and you can scale to suit your

your business needs. Add, re-assign and remove users with just a few clicks. You will receive full support and training from our experts who will guide you through the whole process of migration and user adoption.

We offer a consultative approach to IT, ensuring that each user has their own solution that they can engage with and which will work within the larger business context. At each stage, any customization and device management will be taken care of. We hold your hand every step of the way, to make sure that you get the most from your subscription.

You will have your own dedicated account manager, supported by our wider team, with the simple task of ensuring you have the best experience. By getting to know you, your business and your plans, we can ensure the platform is tailored to your needs.

A “Future-Proof” Solution

With free rolling updates, Office 365 consistently gives you the most up to date and easy to use service. As a “future-proof” IT solution, you will never have to migrate your data again or learn a new unfamiliar system. We've designed our On-Cloud solutions to ensure you maintain your required level of compliance with regulations as the platform evolves. “Future-proof” comes standard with your On-Cloud subscription.

Customisation : Broaden Your Business Sphere

We want to provide you with the ability to work anywhere, with any device, whenever you choose. It is having this kind of flexibility that enables businesses out-perform others and broaden their sphere of opportunity.

Whatever your IT needs, we can help you decide what is right for you, make suggestions and integrate it easily.

You will have your own dedicated account manager, supported by our wider team, with the simple task of ensuring you have the best experience. By getting to know you, your business and your plans, we can ensure the platform is tailored to your needs.

We can further extend the Office 365 solution by including independently developed add-ons.

These include:

- Advanced backup and recovery solutions
- Full device management and support services
- Meeting and Booking management
- Plus many, many more

On-Cloud is an online data storage solution built upon decades of experience. Secure and totally maintained, On-Cloud houses all of your data in one safe place where it cannot be lost. Additionally, Office 365 comes with a 99.9% Service Level Agreement and is built upon decades of experience.

The Bigger Picture

As a business, and as a team, we value technology that makes positive impacts- both for ourselves and our environment. On-Cloud provides a more sustainable work model, supporting a healthy work- life balance, while reducing our carbon footprint.

After 25 years we like to think we know why customers trust us to deliver. You need expert advice, fair prices, and support that you can rely on to be there when needed. We have developed On for you, a platform to launch advanced telephony solutions from mobile to the PC.

You, our customer, may be a small business or an enterprise spanning multiple countries. You will receive the same level of support, advice and time that you need - supported by our Always-On service team, regardless of your business size or spend.

The Communication market is about to change, get 'On' board now!
